Yes, Bill would be the appropriate management lead for UIC. Bruce and I plan to hold our call with the DENR UIC Class II staff on either 4/1 or 4/7 to cover their workplan progress, FY 15 funding amount, etc. If there are any issues to be elevated, we should know by the end of this call.

Yes and I should probably add Bill Markley to my meeting / call w SD. So far I have Kelli and Kent both in surface water and cafos. Would Bill be the right one? Or maybe I should do a separate call with him? Thoughts?

Knowing that Shaun wants to reach out to his DENR counterpart on Dewey Burdock, should we plan to update last year's SD midyear paper on this project for both his visit and your call?

Please start thinking about/elevating to me if you already know of issues that I might want to raise with our states during our upcoming joint water directors calls. Or if you are aware of issues/topics the states may raise to us. I know of one issue already in WY – SRF ULO. You are also more than welcome to sit in with me. I will be sharing any topics that I receive from the states. Bert, Art and I have divvied up the states so I will be setting up calls with ND and SD but we will be doing the calls together. We may meet with WY and CO in person.
